

Monday

Elizabeth focus on A413m

4/11/22 connect to AA001 west

11:30 am WiFi west on 2141

downloaded logs CCFC (33).79

downloaded config file cca 2141-20220411 4.xm

Lens from zoom at 204 but blurry  
does not respond to focus with ↑  
↓

get to 197 in sound  
does not hold under TATE lens

Right around the top of the hour  
I was playing with the focus

I got a quite message ~~from~~ in red  
by cat number  
"Lens resolution changed in same place"

?? something like that

Now I get no pictures  
in either

Now stuck on lens position

12:16 pm

re booted unit

Set video from 15 to 5  
opened lens page 1, IT is on 197 w a p. 1/2

Page 2, IT is on 156 MP looks good. -good

I'm being it alone

downloaded config file CCFC-2141-20220411 (2)

pm

12:23 dis connect from WiFi, think it is off

WEIRD

AAWOL 910  
4/11/22 com to AAWOL East  
5 pm (11:00) wife to AAWOL East 2142 using M1 ~~Mac~~ Mac

download to files (folder "Loss")  
config files (CCFC-2142-20220411.xml)  
changed video compression to 5, saved

Lens Pos 1 (wide)

MF set 189

played with up arrows for focus

when focusing the meter <sup>down</sup> ~~up~~, the camera does NOT refocus  
" " " " up; " " DOES refocus  
set to 187 - saved

Lens Pos 2 Zoom  
MF at 250

with up arrow focus arrows  
39 will only go down 3, and up in seconds <sup>return</sup> to 250

2 take it up to 253, then hold it down to 240  
"shutter still says 253!"

"AF-HW" - weird  
scanset of 2888 says 253 at 240 <sup>1 377</sup> <sub>0 240</sub>

down to 235, up to 236, it will just not refocus.

set to 248 - saved

download config file "CCFC-2142-20220411-2.xml"

sol fun Think Manual capture this has something wrong

it gave me the "Zoom" photo

went to the wide lens pos

It gave me the "wide" photo

I checked. These are not on the camera's memory.

5:50 pm shot with wife
