

~~4/7/22~~ 4/7/22 (had 4 hour zone in am)
afternoon power lost (this is the result)

if wifi on

log in

update firmware 1st

if not work try to reboot (top of camera button)

Then ← if that does not work
one button on camera
has led's

hold down 10 secs does hard reboot

Takes 10 minutes

set timer for 9 mins

GS with later

I did all the above. Nothing worked
Came back. TC to Michael 6 pm

go unplug the power for 5 minutes at camera.

Then plug back in. Look for LED's

Left at 6:30 pm

Back at 7:30 pm

This worked !!
