

4/7/22 afternoon Field Notes  
ZOFC Boat

on Mac

4/7

from track

220 pm downloaded config file "CCFC-2142...07.xml"  
could not

225 pm Hit the top RT reboot button  
in the slot down  
"Success: CCFC is now powering down"

? I did not find the "CCFC\_FW\_2.7.7L.tar.gz" file

249 pm - I over the same. WiFi still there

stopped  
253 Turned on WiFi - East still there

Screen is frozen - I cannot get to desktop or any thing

at AAWO1

346 press button on can 15 secs  
maybe I saw a LED? visible

416 WiFi <sup>is</sup> still available

I saw west at the appropriate time  
Screen still frozen on

417 Screen just unfroze, or I figured out how  
but top left  $\approx$

435 on computer, pushed the button top right  
got the success on green message

458 Same. cloud computer.
